

## Youth

The Dykeenies

I'm a loner by definition of alone  
I feel something a premonition of hope  
But there's more

I've got youth and division  
I've got arms and legs and brain that goes home  
I've got ideas but none are my own  
Just give me moments, my own moments are gone  
And I'll break these bones

Do you feel love?  
Do you feel love?  
Do you feel love?  
Like I feel love, like I feel love  
Like I feel love, like I feel love

You dig deep and you dig deeper  
You build the rocks and meet your maker and [?]  
Life holds more  
And at night when your  
Your head lies awake and controls your thoughts  
But what holds those bones?

Do you feel love?  
Do you feel love?  
Do you feel love?  
Like I feel love, like I feel love  
Like I feel love, like I feel love  
Like I feel love, like I feel love, like I feel love

Do you feel love?  
Do you feel love?  
Do you feel love?  
Like I feel love, like I feel love  
Like I feel love, like I feel love  
Feel love
