

Go loud

Envy

This gone be are anthem
Go loud and dance some
Hey what's you need
Oh yeah I got it
We gone do it all
Break the silence
We gone make some noise
Solve more problems
So Let it go now
Let it flow
Let it all out

(Look)

I go hard
Tell me if you go hard
Motivation to the ceiling
Cause my money is to the to the floor
I don't care bout no hater
I don't care bout them at all
Barely sleep, cause you snooze you lose
We living by the code
Now all this label's wanna be friends
That's cause all that we doing is win
Couple hundreds thousand views
And a double platinum
Trust me I have seen some things
They can't stop me now that I'm in
Young and inspiring
Rest in peace Benjamin

Shout to my boy's that's playing ball
All the young blood's that's where I'm from
Wouldn't be nothing with none of yall
All my top class student's who did it against the odds
And my real African friends working harder then all
What's up?

Ain't no reason to pretend
If I got this motivation it's because of you (that's right)
Ain't no doubt we going in
If I am just where I am it's because of you I got this far

Hey what's you need
Oh yeah I got it
We gone do it all
Break the silence
We gone make some noise
Solve more problems
So let it go now
Let it flow
Let it all out

And go loud
Go loud for me
Go loud for me
Go loud for me

Hey, whatcha you doing (whatcha doing)
Go loud for me
Go loud for me
Go loud for me yeah

Now the place's I can go
I don't wanna stay
And I won't close my eyes and let them take it all away
And I won't let them tell me I'm too late I won't wait
Life is working out
And I'm in my best shape

You see I'm running
And y'all can't never fit me in no box
I be I be shooting stars
From squares ain't got no shot
Keep doing what's you doing
Til they see just what's you got
We be on it non stop
Magic Soup inside that pot

Hey wall out
Tryna do it all
Whatever feels right
Always on my toes
Trying to stay off them heals like
Man I ain't trying to fall back
We all that and then some
This gone be are anthem
Go loud and dance some

This gone be are anthem
Go loud and dance some
Hey what's you need
Oh yeah I got it
We gone do it all
Break the silence
We gone make some noise
Solve more problems
Let it go now
Let it flow
Let it all out

And go loud
Go loud for me
Go loud for me
