The Escape Club

Let's all go and get famous
You don't have to be strangers
C'mon and share the publicity
(Celebrity)
As long as there's somebody watching
And you can smile about something
You're never going to be a non-entity
(Celebrity)

'Cause it's a buzz when reality hits
It's got to stick when you think about it

One shot goes off on the right night
One flash and you're there in the spotlight
One kiss is essentially all you need
Celebrity
You need to be seen on the TV
The right line and you've got notoriety
One picture is okay 'cause then you'll be
A, a, a celebrity

If you can fake without bluffing
Let's all talk about nothing
C'mon and take it to the paparazzi
