

# Come Alive

The Escape Club

Standing up on Mission Hill  
Walking through the thunder and the rain  
I feel the new heat of the sun  
Shining on my tired face again  
Hey, ain't it funny how you never live?  
Don't wait until you're six feet underground  
Let's talk about the, the love  
Been sleeping in our hearts  
Let's talk about now

Come alive  
Feel the need with me  
Come ali-li-live  
Yeah, come alive with me

I love a girl whose eyes are green  
Dreams to keep and love to steal  
I love a girl who's far away  
Heading home and sleeping at the wheel  
And ain't it funny how you never grow?  
You never know a good thing 'til it's gone  
Let's talk about the, the love  
Been sleeping in our hearts for so long

Come alive  
Feel the need with me  
Come ali-li-live  
Yeah, come alive with me  
Come alive  
Feel the need with me  
Come ali-li-live  
Hey, come alive with me

Yesterday, I watched the waves  
Rising high and crashing on the beach  
I let them take my breath away  
Take my dreams and float them out of reach  
And it's funny how I never noticed  
Half the bite inside 'til it was gone  
When I think about the, the love  
Been sleeping in our hearts for so long

Come alive  
Feel the need with me  
Come ali-li-live  
Yeah, come alive with me

La la la la  
La la la la  
Oh yeah  
Come alive with me  
La la la la  
La la la la  
Uh-huh  
Come alive with me
