

# I Will Be There

The Escape Club

And the light in my eyes  
Is the hope in my heart  
Is the night, is the day  
Is the tearing apart  
And the dream is a dream  
That you'll never forget me  
You never forget me  
You never forget

The Prison bell tings through my soul  
The days are dark and the walls are cold  
At night I dream and free of chains  
Inside my mind I'm far away

And I'm walking into the light  
I will be there, I will be there  
With the sun in my eyes  
I will be there, I will be there

And if night should leave  
Any hope in my heart  
With the day they come  
And tear it apart  
The days are dark  
And the walls are so cold  
But through the night  
My dreams unfold

And I'm walking, into the light  
I will be there, I will be there  
With the sun in my eyes  
I will be there, I will be there

And I'm walking home  
I'm home again  
On your own a cold wind blows  
And you look out to the light  
And I'll be there

I will be there  
With the sun in my eyes  
I will be there, I will be there

And the light in my eyes  
Is the hope in my heart  
Is the night, is the day  
Is the tearing apart  
And the dream is a dream  
That you'll never forget me  
You never forget me  
You never forget

And the light in my eyes  
Is the hope in my heart  
Is the night, is the day  
Is the tearing apart  
And the dream is a dream

That you'll never forget me  
You never forget me  
You never forget
