

Say Hello

The Escape Club

To all you sinners near and far
Hello, hello, hello, hello
We've come to change the way you are
Hello, hello, hello, hello
Nothing can be deemed too extreme
Hello, hello, hello, hello
We've come to change the way you dream
Hello, hello (Hello)

Don't look away, no, don't go, don't look away now
(Hello, hello)
Don't look away, no, don't go, don't look away
Say hello, hello

To all the hidden and misplaced
Hello, hello, hello, hello
Held back in time without a face
Hello, hello, hello, hello
To all the sold-out and ignored
Hello, hello, hello, hello
Washed up like oil upon the shore
Hello, hello (Hello)

Don't look away, no, don't go, don't look away now
(Hello, hello)
Don't look away, no, don't go, don't look away
Say hello, hello
Stay, say hello, hello

Goodbye hunger, goodbye pain
We'll never see your face again
We'll rebrand and make it fun
A supersize for everyone

Don't look away, no, don't go, don't look away now
(Hello, hello)
Don't look away, no, don't go, don't look away
Say hello, hello
Don't look away, no, don't go, don't look away now
(Hello, hello)
Don't look away, no, don't go, don't look away
Say hello, hello
Stay, say hello, hello
They say hello, hello

To all you sinners near and far
Hello, hello
