

Just in Case

The Everly Brothers

You say
That you'll give me all your love someday
But Baby
That day seems so far away
Why not cuddle up a bit right now
Just in case
We have to part

You say
Baby now it's time to work and wait
You say
No more kisses 'til we graduate
I say live it up a bit right now
Just in case
We have to part

Just in case I'm drafted baby, just in case
Just in case they send me to some lonesome place
Baby even just in case that someday you
Find someone new

You know
That the future's many dreams away
But I want to laugh and live and love today
Baby now's the time to give your heart
Just in case
We have to part
