

Dust (feat. Bright Eyes)

The Faint

The floor moves and it trembles
Old West shakes as it opens up
People are dying and
I know the cause of it all

With so many buried
The dead twitch on crowded roads
Dirt breaks, dust follows
cracks in the plains are exposed

They're restless enclosed
The quake sets in
They twitch underground
The quake sets in

Dirt starts to shake
The quake sets in
It waves through the town
The quake sets in

That's why the quake sets in
And dust rises again

Wreckage is clearing
The remnants all fade away
No one understands it
The tremors go on unexplained

They're restless, enclosed
The quake sets in
(They twitch underground)
The quake sets in

(Dirt starts to shake)
The quake sets in
(It waves through the town)
The quake sets in

All still to the great shaking
And dust rises again
Dust rises again
