

Sex Show

The Feelers

I'm burying my feet into the ground
I'm leaving no more secrets around
You take everything I say to heart
But I can't tell
I have got to take these steps so far
But I can't move

These laserlines
These laserlines

It's best you don't see me anymore
Cos I keep seeing you around
Beauty in the vicious works are hard
But I can't discuss this sensibly with you
I will probably hurt, but you don't mind
Cos you don't feel

Connect these laserlines
And make this cyber sex show we're in
Connect these laserlines
And make this cyber sex show we're in

Bring it back to earth
It'll be worth it in the end
If I could reach, you're so far

Connect these laserlines
And make this cyber sex show we're in
Connect these laserlines
And make this cyber sex show we're in

It's a sex show honey
It's a sex show honey
It's a sex show honey
It's a sex show honey
It's a sex show honey
It's a sex show
