

Never Be Lonely

The Feeling

People in love get fast and foolish
People in love get everything wrong
People in love get scared and stupid
People in love get everything wrong

At least they're not lonely
At least they're not lonely
Never Be Lonely

BBBBaby I think I'm going CCCrazy
And why should I be sane without you

They tell me to fight it
But they can bloody well just try it
Ill never be the same without you

People in love get special treatment
People in love get everything wrong
People in love their hearts get eaten
People in love get everything wrong

At least they're not lonely
At least they're not lonely
Never Be Lonely

BBBBBaby I think I'm going CCCrazy
And why should I be sane without you

They tell me to fight it
But they can bloody well just try it
Ill never be the same without you

Never Be lonely
