

Hiroshima

The Filaments

August 6th 1945.
A day many innocent people died.
President Truman lost his fucking head.
100,000+ people left dead.
B29 cutting through the sky.
Disregarding human life.
U.S. pride it had to win.
Can't justify this fucking sin.

Nuclear war, lives lost.
Government kills with no remorse.
Government kills, that's the way it is.
Can't let it happen again like in Hiroshima!
