

Just Before Dawn

The Fixx

For you it was giving up, for me was starting again
You crave the change I have become
Time and place make the mind clean to more
For you it was dark but for me it was just before dawn

(Before the dawn) it was just before the dawn
(Before the dawn) it was just before the dawn
It was just before the dawn (before)

You've built your own prison, I watch from the case
Used up with habits, I needed to break
I'm cut from the cloth but always seem torn
For you it was dark but for me it was just before dawn

(Before the dawn) it was just before the dawn
(Before the dawn) it was just before the dawn
It was just before the dawn (before)

Infant promises to buy a gold
Pictures and hopes and dreams, promises sold
You crave the change I have become
For you it was dark but for me was starting again

It was just before the dawn
It was just before the dawn
It was just before the dawn
It was just before the dawn

Just before the dawn
For you it was giving up, for me was starting again
Yea, for you it was all about giving up
Just be free
Just before the dawn
Just before the dawn
Just before the dawn
Just before the dawn
