

# One Look Up

The Fixx

I've got a rover's eye  
All the more to see with  
It's an overview with space in mind  
I can watch myself and bring my faults in line

With one look up oh yes I'm trying  
The spirit's up I'm almost there  
With mental wings I'm nearly flying  
One look up I can see down

If you want to breathe fresh air  
All you have to do is stand well clear  
Because the things we need aren't always here  
So if you feel the need to travel fly over the wall

With one look up oh yes I'm trying  
The spirit's up I'm almost there  
With mental wings I'm nearly flying  
One look up I can see down

If you want to hope accept despair  
So we can kick off the flesh, kick off the flesh, and be able to share

With one look up oh yes I'm trying  
The spirit's up I'm almost there  
With mental wings I'm nearly flying  
One look up I can see down

(One look up, I can see down)  
It's an overview  
(One look up)  
With space in mind  
(I can see down)  
I can watch myself  
(One look up)  
And bring my faults in line  
(I can see down)  
With one look up  
(One look up)  
Oh yes I'm trying  
(I can see down)  
The spirit's up  
(One look up)  
I'm almost there  
(I can see down)  
With mental wings  
(One look up)  
I'm nearly flying  
(I can see down)  
With one look up  
(One look up)  
I can see down there  
(I can see down)
