

Straight 'round The Bend

The Fixx

We're all billboards and labels in the end
We define ourselves from the outsides for our friends
Mardi Gras' mask says play pretend
Well, if there's anybody out there
What kind of message do we send?

Straight 'round the bend
Going around it, the bend
Straight around the bend
Going around it, the bend

We play keep up with the Joneses for effect
We buy fully comp insurance to walk away from the wreck
Where we see the grass is greener, we build a fence
Here, we all claim insanity
That's our best defense

Straight 'round the bend
Going around it, the bend
Straight around the bend
Going around it, the bend

Well, we're all billboards and labels in the end
We define ourselves from the outsides for our friends
Mardi Gras' mask says play pretend
Well, if there's anybody out there
What kind of message do we send?

Straight 'round the bend
Going around it, the bend (Straight 'round the bend)
Straight around the bend
Going around it (Straight 'round the bend)

'Round the bend
Straight 'round the bend
Straight 'round the bend
Straight 'round the bend
Going around it, the bend
Straight around the bend
Going around it, the bend
