

We Once Held Hands

The Fixx

Salt, deep in the earth
Salt, has its worth
Salt, three kings, a birth
What's its worth?
Mine, well it's all for me
Mine, I can dig it free
With slavery
Wait and see

We once held hands
We once held hands
We once held hands
In this common land
We once held hands
We once held hands
We once held hands
We had no...

Oil, the blood that spoils
Oil, the hand that toils
Oil, the gun recoils
Where's the oil?
Mine, well it's all for me
Mine, I'll pump it free
With slavery
Dead sea, wait and see

We once held hands
We once held hands
We once held hands
In this common land
We once held hands
We once held hands
We once held hands
But boy grows to man

Blood, running red
Blood, I want his head
Blood, alive or dead
Rage is fed
Crime, humanity
Crime, hostility
Crime, religiously
Impose your will
Blood will spill

We once held hands
We once held hands
We once held hands
In this common land
We once held hands
We once held hands
We once held hands
But boy grows to man

On shifting sands
[?] man

We once held hands

Salt, it will preserve
Salt, deep in the earth
Salt, three kings, a birth
What's its worth?
Mine, well it's all for me
Mine, can I have it for free?
Mine, with slavery
Dead sea, wait and see

We once held hands
We once held hands
We once held hands
In this common land
We once held hands
We once held hands
We once held hands
Boy grows to man...
