

What God?

The Fixx

What god does God believe in?
What god believes in me?
What god minds over matter?
What god matters to me?

What man's imagination
Moves still with each breath?
What man lies in stagnation
Between his life and death

Save me from the things I don't want
Can you give me what I need?
Save me from the things I don't want
Can you give me what I need?

What god does God believe in?
What god believes in me?
What god minds over matter?
What god matters to me?

Save me from the things I don't want
Can you give me what I need?
Save me from the things I don't want
Can you give me what I need?

Stay like
Awaken from sleep
Stay in line
Rising in the east
Sad signs
Shadows pointing up
To an old trespassing sign
Put up in the night
I pulled up under the neon cross
Took my place in the viewer's journey, direction lost
A smile is over the fear of damnation
The fans have cognized this portray station
To be called time and time again
Paradise is just a destination
'Til they're claiming the state of mind
What god?
What god?

Save me from the things I don't want
Can you give me what I need?
Save me from the things I don't want
Can you give me what I need?

Stay like
Awaken from sleep
Stay in line
Rising in the east
It's said said sad signs
Shadows pointing up
To an old trespassing sign
Put up in the night
What god?

What god?
What god?
