

# Yesterday, Today

The Fixx

Any road, any bed  
Another stitch in the tapestry  
Any plate, any soap  
Another hope, same anatomy

To the higher ground

Any day, any job  
You're still in my memory  
Another note to another song  
I love what you do to me

I'll jump the train and make that step  
I'll make the plane to fly away  
Send it high, so high  
We can turn around

Yesterday, (yesterday was tomorrow) today was tomorrow  
Here and now (this was all that I can be) is all that I  
can be  
We can play, (we can beg, steal or borrow) beg, steal  
or borrow  
It's okay, we can find a way

Any door a reason why  
Another window to another sky  
Another heart lies just the same  
We are together just to ease the pain

I'll jump the train and take that step  
I'll make the plane to fly away  
Send it high, so high  
We can turn around

Yesterday, (yesterday was tomorrow) today was tomorrow  
Here and now (this was all that I can be) is all that I  
can be  
We can play, (we can beg, steal or borrow) beg, steal  
or borrow  
It's okay, we will find a way

Higher ground

I'll jump the train and take that step  
I'll make the plane to fly away  
Send it high, so high  
To the higher ground

Yesterday, (yesterday was tomorrow) today was tomorrow  
Here and now (this was all that I can be) is all that I  
can be  
We can play, (we can beg, steal or borrow) beg, steal  
or borrow  
It's okay, we will find a way  
Yesterday, (yesterday was tomorrow) today was tomorrow  
(Yesterday was tomorrow)  
(Yesterday was tomorrow)

(Yesterday was tomorrow) what you give to me, you're  
still in my path  
(Yesterday was tomorrow) yesterday  
(Yesterday was tomorrow) beg, steal, want to have it  
all  
(Yesterday was tomorrow)
