

Indoors

The Flatliners

Well I've been thinking
That I've been running in circles again
And I've been hiding indoors. God damn,
My skin it don't take too well to them
Whoa whoa

Keep me from coming down
Fooled enough to feel
Anything different now
Fooled enough to feel, to feel, to feel

'Cause I've been frozen down to my teeth
Come on and warm this dead misery
And I've been listening to every word spoken inside and underne
ath
Behind the breath that you can see

Keep me from coming down
Fooled enough to feel
Anything different now
Fooled enough to feel, to feel, to feel

Keep me from coming down
Fooled enough to feel
Anything different now
Fooled enough to feel, to feel, to feel
