

Come On Back to Me

The Foundations

Doo-oooh, doo-oooh

Since you walked out on me baby
Said goodbye and left me crying
There was no-one here to see me
Seemed as though our world was dying
Even though I knew it's true
And there's nothing I can do

I want you here girl with me
I need the kind of loving you can give me
My life don't mean a thing without you
So baby come on back to me

I want you here girl with me
I need the kind of loving you can give me
My life don't mean a thing without you
So baby come on back to me

Da da da - da da da da da
Da da da - da da da da da
Da da

Since the day you walked out on me
Fell a misery upon me
Knew the birds had stopped their singing
Hear the bells that stopped their ringing
Everything's a shade of black
Stay that way till you come back

I want you here girl with me
I need the kind of loving you can give me
My life don't mean a thing without you
So baby come on back to me

I want you here girl with me
I need the kind of loving you can give me
My life don't mean a thing without you
So baby come on back to me

I want you here girl with me
I need the kind of loving you can give me
My life don't mean a thing without you
So baby.....
