

Look Up Look Over

The Four Seasons

Look up, look over
Look through her eyes
There is no love
She may smile when I touch her hair
We kiss and although she's there
She's gone, you know she's gone

Look up, oh it's over
You've lost her eyes
Where have they gone?
Though she still feels so close to me (Close to me)
And it seems like it used to be (Seems like it used to be)
She's gone, you know she's gone (She's gone)
It's over (It's over)

One life we've only been living in name
(Now she knows who's to blame)
(I didn't see, her see through me)
(It should have been enough)
(What she was giving me)

Look up, oh it's over
It passed today, I'll be run along
So when I, will be loving you
The way that you used to do
Look on, she's gone
It's over
(It's over)
