

She Gives Me Light

The Four Seasons

She gives me things that
I never ever ever had to ask for
She gives me things that
A boy like me never had before

And in the darkness of my night
She gives me light
And in the darkness of my night
She gives me light

I call on her any time of day
And she's waiting
She makes my dreams come back to me
When they're fading

And in the darkness of my night
She gives me light
And in the darkness of my night
She gives me light

I call on her any time of day
And she's waiting
She makes my dreams come back to me
When they're fading

And in the darkness of my night
She gives me light
And in the darkness of my night
She gives me light
And in the darkness of my night
She gives me light
