

# Denounced

## The Frames

Are you feeling so abandoned  
Have your crutches all been stolen and broken  
Now sometimes you've got to fall  
Just to remember how far from the bottom you are

Have I got your full attention  
Cause these words don't come so easy now  
We know what's gonna happen  
This is getting us nowhere  
And we've been there

I did denounce this  
And here I am with you  
Before we lose the rest  
Lets go with what we've left

Are you holding it together  
Are you facing all the hardest and roughest parts  
The sign we passed along the way  
Said you've come this far  
Now you're on your own  
And I'm stopping here

I did denounce this  
And here I am with you  
Before we lose the rest  
Lets go with what we've left

I did denounce this  
And so did you  
Before we lose it all  
Let's try to call it off  
I did denounce this
