

Song for Paul

The Frames

We're brothers in another life
We walk this world now hand-in-hand
We saw through the blackest night
And brought the sunlight to the land

And we were born as one in Christ
We had our hearts set on this star
'Cause out on every flag
We heal the world with love and stone

You see this world is not a place to land
It's all I have in here my hand

We're brothers in another time
We had our hearts set on the sun
We helped the many through the light
We brought a peace onto this world

We bathe in rivers deep at sea
Our hearts were cleaner than the soil
We never need nothing to breath
We found our answers in the way
We walked, and talked and planned
This world was not depraved by man
