

# Song For Someone

The Frames

**Fmaj7**

1. Dryin' up in conversation still

**Emi**

my head was halfway round the world

**Fmaj7**

and workin' through the sleepin' hours

**Emi**

driven by the promise of a quick return

**F**

**Emi**

And I wonder if she'll be the very same

**F**

**Emi A**

and I wonder if she's gonna break the waves again

2. Tryin' just to focus on the good

I'm tired of divin' for the pearls

And every dawn is another morning less

I have to wait to wake beside that girl

And I hope she's gonna be the very same

and I wonder if she's gonna break the waves

**A**

**F**

R: And if we're all for someone

**A**

**F**

and if we're born for someone

**A**

**F**

when will she come that someone

**A**

**F**

and put things in their place

3. Comin' back to see you girl you know

there's nothing surer in this world

and every dawn is another morning less

I have to wait to wake beside that girl

and I hope she's gonna be the very same

and I wonder if we both survive the rain

R: And if we're all for someone

and if we're meant for someone

when will she come that someone

and put things in their place

R: And if we're meant for someone

to wait each day for someone

when will they come that someone

and put things in their place
