

I've been waiting for you, my love!
During these harsh days,
I've been waiting for you, alone!
In these sleepless nights.....
Onyria come and save my heart
from this planned life,
Onyria come and take my heart
out of this grey world,
out of this grey world,
out of this grey world.....
I'm still waiting for you, my love!
Please don't let me here.....
I'm still waiting for you, alone!
Please take me away.....
Onyria come and save my heart
from this planned life,
Onyria come and take my heart
out of this grey world,
out of this grey world!
Let me enter
in your land of bliss,
let me breath
your scent of pleasure.
Please remind me
what's the meaning of love
and please teach me
what's the meaning of hope.
Tell me the secrets
of the unknown happiness.....
I'm still waiting for you, tonight!
Please don't let me here
I'm still waiting for you, my love!
Please take me away!
Onyria come and save my heart
from this planned life,
Onyria come and take my heart
out of this grey world,
out of this grey world!
Let me enter
in your land of bliss,
let me breath
your scent of pleasure.
Please remind me
what's the meaning of love
and please teach me
what's the meaning of hope.
I'm still waiting for you,
please don't let me here.
I'm still waiting for you,
please take me away!
