

Sperm Like Honey

The Frozen Autumn

Last night I lost control
Lost control, lost control.
Dreamt of dying
Died a thousand times.

So many different deaths
Smiling at me
Caressing me
Promising delight

Last night I lost control
Thought my shells were strong enough.
Enough.

So many different deaths
Making love to me
Sucking me
Granting delight

Last night I lost control
Thought my shells were strong enough
Enough

And my sperm becomes like honey
Dripping from distance
Blessing the earth
Sweet as a new womb
Sweet as a new womb

So many different deaths
Making love to me
Sucking me
Granting delight

Last night I lost control
Thought my shells were strong enough
Enough

Death is gone
Life is gone
The shells reform

Death is gone
Life is gone
The shells reform
