

This Time

The Frozen Autumn

A shadow awakes,
A shadow withdrawns
To exist in every moment
when we're here.
My hollow tears...

In a chance
the coffin of the desperated time
I too candle again the days of promice.

Time to surrender
Time to forget
Time to remember, I decide
Time to surrender
Time to forgive
Time tot remember I decide

This time...
Looking through the windows
This time
Shadows 're coming back
This time
I will die!
Just follow my direction
This time
Shadows of the past
This time...

A shadow awakes
A shadow holds
To exist in every moment
Where it haunts
My hollow face

Time to surrender
Time to forget
Time to remember, I decide
Time to surrender
Time to forgive
Time tot remember I decide

This time...
Looking through the windows
This time
Shadows 're coming back
This time
I will die!
Follow my direction
This time
Shadows of the past
[x 5]This time...
[Background] (I will die!)

Open up the windows!
This Time,
shadows come in black.
