

Told You at Once

The Frozen Autumn

Don't think i am in love, i ain't
It's you who waits there in the rain
It's you who falls in love now
Tension's in the air, all you'll get from me in pain
I'll neither try to speak, not even try to be your friend
I'm not interested in your fate
And now you'll see how far i can go
That far you've never thought
Told you at once. I am no-one's
I like no-one: told you at once!!
We'll meet again, you'll see, I swear

It's only me who can play this game!!
No lucky strikes, destiny's hints again on your side
Get on your knees and pray for more
Love sick again, you see I ain't
Love sick again, you see I ain't
You fall in the ground
Love sick again, you see I ain't
Love sick again, you see I ain't
You fall in the ground
I am no-one's: told you at once
