All her friends wearing Gucci so she don't rock it no more
Every time we in Jimmy Choo, they gotta lock up the store
Walk out with boxes galore
Next week she cop her some more

Soon as them butterfly doors go up on the Ferrari
She step outside the car on there, stumble into Bulgari
Fall in that YSL, try it on, you fly as hell
Don't really like it, but I'm buying it: might as well
Have her own reality show: no drama
Grab your girl, we're shooting real housewives in the Bahamas
2-piece Hermes, Bottega Veneta flats
Heard Diddy out here so you know where the party at
We on... and I ain't even gotta ask twice
Cause when we hit the room she up and down like the gas price - damn!
Got chills thinking of last night

You ain't gotta say bye bye, baby this is hello
Put your hands in the sky, that's where we gonna go

Girl I know you wanna get away
This hotel room, that's where it goes down
And I know we never get away
Just give me a couple minutes and I'm in it
We all over the table, ain't no problem with you sweating on me
And I ain't pulling out, I'm tryna have fun
I know you tryna have fun...
