

## Sing Me A Song

The Go Set

If you sing me a song, you know I'll come running  
Whistle me that tune that brings a tear to my eye  
The past is now behind us, sing songs about the future  
Share a drink, smile a bit, my darling don't you cry

And if you sing me a song, you know that I'll come running  
Whistle me the tune that brings a tear to my eye  
Money in our pockets, and food is on our table  
Stand up and talk straight, don't waste the time today

Don't fall down, you will never get up  
Don't fall down, and if you sing me a song  
Sing a song of Revolution

If you sing me a song, you know I'll come running  
Whistle me the tune from a childhood deprived  
The past is now a picture, those memories are golden  
We ain't got much, but its real, and our trouble is behind  
If you sing me a song, sing a song of revolution
