its not up to me, its not A13
its not the Circle K at the top of street
I know it may seem debonnaire
But there's time on the line that we just can't spare
Hold up everybody, put it all on ice
Gotta feeling on the mic that's twice as nice
Gotta cope with the dope by cutting soap
So turned on livin' out my horoscope
No one can do it like we can
We take the stand with a master plan
We are the educated, motivated, skin tight, rawhide, hardworkin',
blood sweatin', Hollerin', your world wreckin'
Ladies of eighty three
Ladies you want to be
We're not the first but that matters least
Cos there's free rough justice for the masterpiece
A panther is
What a cougar aint
What a royal wants to be
What a hustler cant
What the ladies like
What the fellas love
What U L C can't get enough of
I said now
Walk like a panther?
I said
Walk like a panther?
What the ladies like
What the fellas love
What U. L. C. can't get enough of
we got no second chance, we got a soldier's stance
we got the thrills in our skills that you can't advance
never gonna get ninety nine percent
my get up and go just got up and went
so unrelenting, pay strict attention
my mind is heading In the right direction
more hits than bazooka smooth
our quarantee is we can move
our Q and A don't ricochet
we make the play with a double A
we are the educated, motivated, skin tight, rawhide, hardworkin',
blood sweatin, hollerin, your world wreckin'
ladies of eighty three
ladies you want to be
we're not the first but that matters least
cos theres free rough justice for the masterpiece
