## **Those Days Are Over (the Godfathers)**

## The Godfathers

Those days are over, those days are over Those days are over, those days are over Nothing ever happens come what may And snow never falls on Christmas Day And all around I see is war I can't stand this anymore Those days are over, those days are over Those days are over, those days are over These are friendly times These are strange times Soldiers to the left of me, soldiers to the right I can't take this anymore Those days are over, those days are over Those days are over, those days are over Nothing ever changes for all we say It's the same tomorrow as yesterday Yes all around I see is war I can't stand this anymore Those days are over, those days are over Those days are over, those days are over
