

## Don't Make Love So Hard

The Good Life

You said you're a wreck, you get so upset  
You said that you'd ruin everything  
The first chance you get  
But your chances come day after day  
As I drunkenly slander your name  
Is it possible you've become fond  
Of the luses we've become?  
Don't make love so hard

You said that's enough, you've been acting so bored  
You said it's too much  
You can't take anymore  
But day after day that I'm gone  
You anxiously wait for that call  
It's almost as if you would miss me  
If I never returned at all  
Don't make love so hard

I sit at the bar, you're off playing pool  
Still you keep a close eye on which  
Girls I've been talking to  
But day after day stumbles by  
And I've yet to abandon your side  
Has jealousy's venomous dart poisoned  
The well of your heart?  
Don't make love so hard

La, la, la, la,  
La, la, la, la I love you
