The Good Natured

```
I remember when
you used to sing a sweet melody,
now a distant memory
I can see the ending to this love story, love
Oh, when we turn the page we'll find
The way your mind is wondering again
To a place where I can't really find
Wherever you are, please wait for me there
Unlock my heart for it is caged
And now happiness turns to misery
I can be the ending to this love story, love
Oh, when we turn the page we'll find
The way your mind is wondering again
To a place where I can't really find
Wherever you are, please wait for me there
Unlock my heart
When we turn the page we'll find
The way your mind is wondering again
To a place where I can't really find
Wherever you are, please wait for me there
Unlock my heart
```
