

# Out Of This World

The Grass Roots

Every day in the same old way  
I'm a nine to five outsider just for you  
Every street burnin' up my feet  
I'm a worn out sidewalk rider when I'm through

Just when I feel awfully low  
In your arms I know I can go

Out of this world  
Into your world  
Where the lovelight shines for me alone  
I know I've come home  
Out of your heart  
Into my heart  
Tendernees I need so much to live  
That's what you give

Push and shove in the name of love  
It's the weak who fall; the stronger who survive  
"Boy you're dead" poundin' in my head  
And it's only when I'm with you I'm alive

Wicked as the world may be  
My eyes only see you and me

Out of this world  
Into your world  
Where the lovelight shines for me alone  
I know I've come home  
Out of your heart  
Into my heart  
Tendernees I need so much to live...  
That's what you give

Out of this world  
Into your world  
Where the lovelight shines for me alone  
I know I've come home  
Out of your heart  
Into my heart  
Tendernees I need so much to live...
