

I WITNESS!

I couldn't see the truth
In a world of lies.
'Til I felt your grace
And the scales fell of my eyes.

The time is now,
Don't let it slip away.
The choice is yours.
The choice is yours to make.
The time is now,
Don't let it slip away.
The choice is yours.
The choice is yours to make.

The time has come to rise again.
The time has come to stand our ground.
The time has come to take our lives back.
The time has come!
THE TIME IS NOW!

No weapon formed against us.
No weapon formed against us.
No weapon formed against us.
No, no, no weapon formed against us.

WITNESS!

I couldn't see the truth
In a world of lies.
'Til I felt your grace
And the scales fell of my eyes.

The time is now,
Don't let it slip away.
The choice is yours.
The choice is yours to make.
The time is now,
Don't let it slip away.
The choice is yours.
The choice is yours to make.

The time has come to rise again.
The time has come to stand our ground.
The time has come to take our lives back.
The time has come!
THE TIME IS NOW!
