

Weight Of The World

The Great Commission

I know You are always with me forever even till the end of the age.

I know You are always with me forever even till the end of the age.

End of the age.

I am not A, we are not A-lone.

The weight of the world is crashing down on me.

Weight of the world is on my back.

The weight of the world is crashing down on me.

Weight of the world is on my back.

Through every struggle I am not alone.

Through every trial I am not alone.

Through every hardship I am not alone.

You are my strength I am not along.

I know You are always with me forever even till the end of the age.

I know You are always with me forever even till the end of time

.

I am not A, we are no A-lone.

The weight of the world is crashing down on me.

Weight of the world is on my back.
