

# Lonely Feeling

The Greenhornes

When the world is spinning in vain  
To everyone you want to explain  
But with every word a little more pain

Sometimes you get a lonely feeling  
And find that you want to die  
Sometimes you get a lonely feeling  
In time it will pass you by

What woman want, woman will get  
She'll tie you up with no regret  
And all the time know what to expect

Sometimes you get a lonely feeling  
And find that you want to die  
Sometimes you get a lonely feeling  
In time it will pass you by

When you hear the chilling sound  
Of a midnight train to another town  
And desperately you want a ride

Sometimes you get a lonely feeling  
And find that you want to die  
Sometimes you get a lonely feeling  
In time it will pass you by
