

# The End Of The Night

The Greenhornes

She has an evil heart  
She's gonna tear you apart  
Gonna put you in the dark  
Gonna spit out your heart

She has an empty soul  
She's gonna play it of cool  
Gonna make you a fool  
Turn around and it's you

So put your feet on the floor  
And let it all go  
It'll work out fine  
It'll be alright

Now if he loves her  
Just keep it in mind  
It's the end of the night  
It's the end of the night

She has an evil heart  
She's gonna tear you apart  
Gonna put you in the dark  
Gonna spit out your heart

She has an empty soul  
She's gonna play it of cool  
Gonna make you a fool  
Turn around and it's you

So put your feet on the floor  
And let it all go  
It'll work out fine  
It'll be alright

Now if he loves her  
Just keep it in mind  
It's the end of the night  
It's the end of the night
