

When That Helicopter Comes

The Handsome Family

It's gonna rain champagne
And the hills are gonna dance
There will be power in the blood
When that helicopter comes

The sky will swim in lightning fire
And the trees will shake and scream
There will be power in the blood
When that helicopter comes

Rocks are gonna roll uphill
And the sun will dive in the sea
There will be power in the blood
When that helicopter comes

The dead are gonna wake and sing
And spin their bones in the grass
There will be power in the blood
When that helicopter comes
