

# A View From Nowhere

The Hellacopters

One day i know you follow  
Dead end on a one-way street  
But would you ever dare to walk alone

Damn, you become so hollow  
Even then so bittersweet  
Would try to seeze this moment  
Or would the moment try to seeze your soul

And the stab rolls by  
You make me realize  
This is a view from nowhere

Yeah, passes we travel last remind all the crap baby  
From nowhere  
We shut up and stab  
But its only a view from ...

Some way i will make you see how  
Easy targets on the foot of light  
A band so strong can only tear apart

Hand stab would can let it be now  
Losts tracks on the clawless night  
Funny how can be the only  
Makes it easy to me to come along

But if i let you choose  
Would cut me lose  
Show me your view from nowhere

Yeah, passes we travel last remind all the crap baby  
From nowhere  
We shut up and stab  
But its only a view from nowhere  
Only a view from..

I got shut with the view

We shut all the matter  
You will try to make me see  
You will try to make it clear  
But its only a view from nowhere

Yeah, passes we travel last remind all the crap baby  
From nowhere  
We shut up and stab  
But its only a view from nowhere  
Only a view from nowhere
