

Slow Down

The Hellacopters

You say someone 's tryin to
Run some jive deal down on you again
Things are getting strange
You need a situation change

You better slow down
Take a look

It is only with the heart
One can see
Rightly

Here they come again
Tryin to run that same deal down on you again
But this time i know you 're gonna get it together
Won 't you please check it out

It is only with the heart
One can see
Rightly

You know this world is movin
Just a little bit too fast
You 've got to slow it down
Slow it down
And if you let your heart be your guide
I believe you 're gonna do alright

Slow down
Take a look
