

Other Options

The Higher

Maybe you should turn around and walk away
Cuz you're not really listening
To anything that I've been trying to say
Stop ignoring me
Please baby baby please just go
Cuz I can't be held responsible
Leave baby baby leave cuz I know
That it's impossible

Outside laying down it's wearing me out
The gray clouds
Crushing the grass tasting the past
In your mouth
Let me forget your head on my chest
We cross the line confused

Why would you say that all our hope is gone
Are you trying to hurt me
Why would you say we're barely holding on
To say that you need me
And why would you say that if we're meant to be
We'd be together eventually
Maybe its time we go our separate ways
And explore other options

Well well well well

You can dream baby baby dream but you know
That this cant be casual
Please baby baby please just go
If the feeling is mutual

Look at me now walking around
At sun down
Light on the glass regretting the past
Out loud
Let me forget your head on my chest
We crossed the line confused

Why would you say that all our hope is gone
Are you trying to hurt me
Why would you say we're barely holding on
To say that you need me
And why would you say that if we're meant to be
We'd be together eventually
Maybe its time we go our separate ways
And explore other options

Please baby baby please just go
Please baby baby please just go
Please baby baby please
Please baby baby please

Why would you say that all our hope is gone
Are you trying to hurt me
Why would you say we're barely holding on
To say that you need me

And why would you say that if we're meant to be
We'd be together eventually
Maybe its time we go our separate ways
And explore other options
Maybe its time we go our separate ways
And explore other options

Well well well well
And I said
Please baby baby please just go
Hey
Please baby baby please just go
Yeah
