

So Many Pigs So Few Bullets

The Hope Conspiracy

Your sound is flat line
trained mundane design
yet the makeup looks so right
so right

You're an LA factory
Hollywood fuck display
yet the hairdo looks so right
so right

Pawns and puppets
Look great for the industry

You're vapid emission
Crawl the hills like vermin
yet the body looks so right
so right

You're sold down the river
But you'll never deliver
yet the stage moves look so right
so right

They will fall at your feet
Promising everything
Pawns and puppets
look great for the industry

You're a fucking disease
soulless and empty
playing your part
you know what you are...

You're a fucking disease
