

Suicide Design

The Hope Conspiracy

Stealing my breath
running with death
cursed through life
this head's a wreck
On murder blues
Holy noose
Alarm your eyes
Just paying the dues
It's a gun at my neck
A voice in my ear
To never look back

Everything changed
within this fear
Of what I've become
Jesus stagger
Use life as a dagger
Jump in the fire burn forever
Through the choking clouds
We bleed from the mouth
and die together
the life the grave
the tragedy

What you believe
Things that you preach
ideals just fallen
dead at your feet
sudden change
within cruel hearts
free as a dove
you need them no more
use life as a dagger
jump in the fire burn forever
Through the choking clouds
We bleed from the mouth
and die together
the life the grave the tragedy

jump in the fire burn forever
Through the choking clouds
We bleed from the mouth
and die together
the life the grave the tragedy

The life the grave
the yesterday
