

# Privilege

## The Human League

Tough guy drove down in the night  
Left his name behind  
In a stolen Jaguar  
Bother on his mind  
Past the lights of Birmingham  
Chipping by the law  
Greets his destination  
With a silent roar

One man had the greed  
One man guaranteed  
One man saw the light  
One man went to fight

Privilege - takes it  
Privilege - flaunts it  
Privilege - keeps it  
Privilege - bought it

Once he starts he can't be stopped  
A hint becomes a howl  
You turn away, you block your ears  
But you still feel the growl  
What was once a hollow corpse  
Is very much alive  
Now the threat from far away  
Is standing on your drive

One man has the heart  
One man stands apart  
One man won't back down  
One man demands the crown

Privilege - I want it  
Privilege - I plead it  
Privilege - I'll take it  
Privilege - concede it  
Privilege - don't hoard it  
Privilege - unfreeze it  
Privilege - award it  
Privilege - I'll seize it

Overpower privilege  
Seize the hour of privilege  
Storm the tower of privilege  
Privilege, privilege, privilege

Privilege - I want it  
Privilege - I plead it  
Privilege - I'll take it  
Privilege - concede it  
Privilege - don't hoard it  
Privilege - unfreeze it  
Privilege - award it  
Privilege - I'll seize it

Privilege - I want it

Privilege - I plead it  
Privilege - I'll take it  
Privilege - concede it  
Privilege - don't hoard it  
Privilege - unfreeze it  
Privilege - award it  
Privilege - I'll seize it

Don't hoard it  
Unfreeze it  
Award it  
I'll seize it  
I want it  
I plead it  
I'll take it  
Concede it
