

I Know You

The Incredible String Band

I know you
through and through
Saw you kiss the flowers
For hours and hours
Saw you colour the flowers
For hours and hours

You and all the ones I've known
Shall wear my crown
Winged we were before time was
How we've flown, how we've flown

I love the others
My sisters and brothers
I love them all the more

Now that I've found you I love them all
The more.
