

## Movie

### The Innocence Mission

Restart the movie now.  
Slow the traffic,  
and steady all the days.  
Let's take down the guitars from the walls,  
walk casually, and play into an early frame.  
Notice the air is wondrous,  
with all the weather,  
the possible light, and the streets to reach.  
And you are here,  
and we have only arrived.

California windmills,  
let the arms move the other way,  
turn around the days.  
If we could be returned, in the heart,  
remade in the heart,  
and returned in the day,  
notice the air is wondrous,  
with all the weather,  
the possible light, and the streets to reach-  
and you are here,  
and we have just only arrived.
