

Just a Little Kiss

The Irish Rovers

When I was young, I rambled all around
Without a care, I roved from town to town
'Til a lass, I chanced to meet and she swept me off me feet
And all it took was just a little kiss

Just a kiss, one little kiss
And all it took was just a little kiss

Sly cupid cast his net and I was caught
Me brain was paralyzed from simple thought
Not a moment could I find, when she wasn't on me mind
And all it took was just a little kiss

Just a kiss, one little kiss
And all it took was just a little kiss

I thought the doctor's help is what I need
For I couldn't sleep and I was off me feed
But he said, "Bad news, me son, your bachelor days are done"
And all it took was just a little kiss

Just a kiss, one little kiss
And all it took was just a little kiss

Now me rovin' days have all become a blur
For I'm besotted by the very thought of her
And whatever her demands, sure, I'm putty in her hands
And all it took was just a little kiss

Just a kiss, one little kiss
And all it took was just a little kiss

I pledged me love to her and she to me
And I asked her hand in marriage nervously
Well, she nodded and she laughed
"Boy, I thought you'd never ask"
And all it took was just a little kiss

Just a kiss, one little kiss
And all it took was just a little kiss

And when she got the urge to have a child
Said, "I am more than happy to oblige"
Now we have Maise, Sean and May
With two more on the way
And all it took was just a little kiss

Just a kiss, one little kiss
And all it took was just a little kiss
Just a kiss, one little kiss
And all it took was just a little kiss
