

I'm Falling

The J. Geils Band

Into the spotlight, alone
Just waiting for my cue
Staring into space
Not knowing what to do, what to do

Suddenly I realize and I freeze
And I hesitate
This cold, cold feeling, a chill
And a move that comes too late

And I'm falling, falling, falling, falling, falling
Oh yeah
Yes, I'm falling, falling, falling, falling, falling
Oh yeah

Into the room, so crowded
With faces I can't make
Everyone is talking
There must be reasons why they came

On my own, feeling all alone
Tired and weak, I can hardly speak
I feel frozen to the floor
But now I disappear, vanish
They can't see me anymore

And I'm falling, falling, falling, falling, falling
Oh yeah
Yes, I'm falling, falling, falling, falling, falling
Oh yeah

Oh, I can't stop, can't stop

Ooh, like a chill, like a chill
And I'm, and I'm, and I'm, and I'm, and I'm tired
And so all alone
Can't stop the feeling
